## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-14, 19, 24, and 25 are allowed.
2. The following is an examiner's statement of reasons for allowance: While two opposing faces combined to form a nozzle known in the art, a nozzle unit having a liquid nozzle, an air nozzle, a vessel for liquid to be dispensed, and a conduit, wherein forced air draws liquid from the vessel to the liquid exit nozzle such that both nozzles are formed when opposing faces having elements are sealed together is not known or rendered obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patent No. 5,520,339 to Kuo discloses nozzles formed from the sealing of two opposing faces. U.S. Patent No. 4,047,995 to Leal-Diaz discloses nozzles formed from the sealing of two opposing faces.
